

# ► MIG WELDER

WMIG

## HEAT RESISTANCE WITH DEXTERITY

Designed for full-time welders, Ironclad's welding glove line up is designed for maximum durability and comfort. The MIG Welder is built for precision MIG welding with buffalo split leather back of hand, welted seams with aramid stitchings, and a 6" full leather cuff for maximum heat and splatter resistance. Lined with a full cotton liner for even more heat resistance and comfort, this glove is built to last.

### TECHNICAL INFORMATION

EN 388:2016

EN 407

3234

Category 2

413X4X

### PRODUCT FEATURES:

- **Cowhide Split Leather Palm**  
Cowhide leather palm & reinforcement for balanced heat resistance.
- **Buffalo Split Leather Back of Hand**  
High resistance against heat and slag splatter.
- **6" Cowhide Split Leather Cuff**  
Extended protection against heat and splatter.
- **Heat Resistant Cotton Liner**  
Full cotton liner for improved comfort and heat resistance.
- **Heat Resistant Stitching**  
Aramid stitching & welted seams for increased heat resistance and durability.

### BEST USES:

MIG Welding, Fabrication
